Should immediate aid be necessary, guns to be fired.
- A red Flag pierced white, for the *Digby Packet*.
- A blue Flag pierced white, for the *St. Andrew's Packet*.

The Time for going through the Falls.

THE FALLS are level, (or still water) about $3\frac{1}{2}$ Hours on the Flood and about $2\frac{1}{2}$ Hours on the Ebb, which makes it passable four times in 24 Hours, about 10 or 15 minutes each time. No other rule can be given, as much depends on the Floods in the River St. John, and the time of High Water or Full Sea, which is often hastened by winds, and in the proportion to the height of them.

EXPERIMENTS ON MILK.

Morning's Milk commonly yields some hundredths more Cream than the evening's at the same temperature. That milked at noon furnishes the least; it would therefore be of advantage, in making Butter and Cheese, to employ the morning's Milk, and to keep the evening's for domestic use.—In milking Cows this singular phenomenon is observed, that the Milk obtained from one and the same milking differs considerably in quality; that, contrary to what might be expected, the Milk first extracted is not the best, but that which is obtained last contains invariably the largest portion of Cream. A meal's Milk of one Cow, milked into five vessels of the same size, and then separately examined, gave results as follows:—

No. 1 gave of Cream 5 per cent; 2, 8; 3, 11, 5; 4, 13, 5; 5, 17, 5.

MATERIAL INCREASE OF FOOD BY THE USE OF RICE.

Take 1lb. of Rice, and boil it gently, till it appears a thick paste; when mixed with the usual quantity of paste it will be sufficient to make 5lbs. of wheat or barley meal into a dough, and when well risen bake it the usual time.

An account of the proportion and produce of the flour of a bushel of wheat, mixed with rice, in the proportion of 5lbs. of flour to 1lb. of rice, and baked in the customary way, and of the same sum laid out into barley, and baked into bread.

And 30lbs. of Rice at 3s. per cwt.	-	-	0 9 8

Then, as 6lbs. of this mixture makes 14lbs. of bread, 180lbs. will make 450lbs. which costs £2 13s. 8d. And as 2s. will buy 120lbs. of barley meal, 53s. 8d. will buy 247lbs. Then, if 6lbs. of barley alone produce 9lbs.
